## From the Director's Desk

Dear Students and Families,

It is my pleasure to welcome you to a new year of discovery through Adventist Colleges Abroad.

Our theme this year, **"More Than Words. Learning Languages, Living Stories,"** reflects the heart of the ACA experience. Learning a new language is not only about mastering words; it is about building connections, understanding new cultures, and growing personally and spiritually in ways that transform your life story.

We are pleased to announce that, in addition to our traditional academic year and summer programs, **new global internship opportunities** are now available. These experiences will allow undergraduate students to apply their skills in authentic, real-world settings, deepening both their professional and cultural competence.

As you explore the pages of this magazine, I invite you to imagine yourself studying in a new country, speaking a new language, and living a story that only God could write. ACA is ready to help you take that first step into a larger world.

We look forward to seeing how your journey unfolds.

# Global Internships

## ACA Launches a New Pathway for Learning and Growth

2026 welcomes a new area in ACA programs: Global Internships. Undergraduate students are invited to enjoy an international experience while developing their intercultural and professional skills. These internships serve as a bridge between academic learning and professional practice, enhancing students' employability and intercultural competence.

ACA global internship opportunities are offered in many countries around the world. Each internship lasts between 1–3 months. Most internships are conducted in English and Spanish, though learning and using the local language is strongly encouraged.

## Internship Categories

- Health & Medical Sciences
- Education & Language
- Communication, Media & the Arts
- Business, Innovation & Administration
- Engineering, Technology & Environment
- Mission & Special Projects

A complete list of available internships and host countries is published on the ACA website.

Photo Credit: Kristen Tatsuyama (LSU - Italy)

## DID YOU KNOW?

- Over 8.2 million students seek internships annually, but only 3.6 million positions are available
- ACA Global Internships provide a competitive edge in an increasingly global workforce
- These internships combine mission, academic, and professional goals in one life-changing experience

# Why Choose an ACA Global Internship?

**Gain hands-on experience while living abroad**

**Join a global network of faith-driven professionals**

**56% of students with internships received job offers**  
(vs. 36% without) — NACE, 2022

**Stand out: 87% of employers prioritize graduates with global experience**

**Develop intercultural competence and adaptability**

## How to Apply – Step by Step

1. Search for the Global Internship opportunity that best fits your resumé on the ACA website
2. Submit your application and upload your CV and a Letter of Interest
3. Wait for acceptance and invitation from the host institution
4. Log in to the ACA website and collect the needed signatures from your home university (allow approximately 2 weeks)
5. Your application is complete when your home university uploads the signature document to the ACA website
6. Once ACA confirms your placement with the host institution, purchase your plane ticket and prepare for your experience
7. After completing the internship and the ACA program evaluation, you will receive a Certificate of Completion for your home university to award credit

### Academic Credit

Credit for internships is **granted by your home institution**, not ACA. You must make **arrangements with your university before participating**. ACA will **only issue a certificate of completion**, which can support your credit request.
